Bogor, Indonesia

A Bachelor of Accounting graduate with hands-on experience in full-stack web development gained through an intensive bootcamp program. Proficient in HTML, CSS, JavaScript with a strong passion for building scalable web applications and delivering seamless user experiences through responsive design. A detail-oriented and growth-driven individual, eager to start a career as a Full-Stack Developer and apply both technical and analytical skills in a dynamic development environment.

Project Experiences

Harisenin.com - Virtual Project Based Internship, Harisenin.com x CMLABS . Apr, 2025 - May, 2025
- Built a web application to help companies monitor employee performance through a structured KPI system. Features include employee data management, monthly KPI evaluation, and performance dashboards.

Harisenin.com - Full Stack Developer Bootcamp . May, 2024 - Oct, 2024
- Built a full-stack web application as a final project using React.js, Node.js (Express.js), REST API, MySQL, and Git.
- Designed basic database structures (ERD) to improve data efficiency and security.
- Implemented user authentication, role-based access control, and features like search and filtering.
- Gained experience in debugging, problem-solving, and version control systems (GitHub).

Rakamin Academy - Qwords UI/UX Designer Virtual Internship Program. Apr, 2023 - May, 2023
- Developed hands-on skills in visual design, high-fidelity prototyping, and mockup creation for web applications.
- As part of the final project, designed user-friendly interfaces including login, registration, and forgot password forms.
  .
